

OUR VISION YOUR FUTURE

Experience Meets Innovation

WE ARE TSCG

Since 1984, TSCG with 230+ experienced professionals in 20 offices, has provided a full assortment of commercial real estate advisory services to landlords, developers, investors, financial institutions and retailers throughout the United States.

These services include: project leasing, tenant representation, property management, investment sales, investment management, net lease sales and financing, construction supervision, receivership, development consulting, surplus property disposition, location data analytics & research. Our people are our biggest strength and our biggest differentiator.

Unlike most of our competitors, most of our associates either began their careers at TSCG or entered our program very early in their careers. As such, they have typically gone from trainee to trainer, all along with the “uncompromising” values and “client first” philosophy that has made us the industry leaders that we are.

TSCG has an unparalleled commitment to local market presence. An extensive research and GIS department, state of the art technology and always doing what’s right for the client, as opposed to what’s “expected” in the industry, further differentiates TSCG.

Overview Of Services

Our diverse platform of expertise allows us to provide our clients with the best service, experience and results possible.

PROJECT LEASING

Our team currently handles a portfolio of 60+ million square feet of retail space. We believe that the corporate decision not to develop property, acquire shopping center assets, or participate in joint ventures, for our own account, positions us to achieve greater objectivity than our competitors, as well as avoid conflict with our clients.

INVESTMENT MANAGEMENT

Hart Realty Advisers (Hart), a wholly owned subsidiary of TSCG, is an SEC Registered Investment Adviser. Hart provides separate account investment management services for public and corporate pension plan sponsors, endowments and family offices. For more than a third of a century, Hart has produced a consistent track record of reliable returns across asset classes and through market cycles. During that time, Hart has maintained a disciplined and thoughtful approach of balancing risk to create value for our separate account clients. This measured approach has resulted in Hart consistently exceeding the NCREIF (NPI) industry benchmark for the more than \$2 billion of real estate assets acquired.

CONSTRUCTION SUPERVISION

Our construction management team has completed renovation and redevelopment projects from single shop space to entire shopping centers utilizing non-union or union labor when and where appropriate.

TENANT REPRESENTATION

Our team offers a unique advantage to our landlord clients. TSCG's tenant representation division exclusively represents 500+ national, regional and local retailers and restaurants entertainment, healthcare, automotive services, etc.

PROPERTY MANAGEMENT

Our team provides a full array of services including on-site inspections, tenant relations/retention, budgeting, accounting and reporting, construction management, up-to-date market research and vendor quality & price management. With a portfolio over 12+ million square feet, our success is the result of applying our resources, talent, experience, and ethical standards to effectively maximize our client's return on investment.

DEVELOPMENT CONSULTING

Utilizing the company's extensive experience and relationships in the real estate industry, TSCG's focus for retail consulting engagements include a trade area analysis of the current trade area and future market trends, a property analysis to understand the layout of the land and development status. We will create a merchandising plan leveraging market research and analysis, provide input into retail site plan fundamentals, as well as provide input into revenue and expenses related to the proposed retail merchandising.

INVESTMENT SALES

Our Investment Sales Group delivers institutional sales and advisory services to our clients with dedicated professionals in New York, Miami and Atlanta. From pre-marketing due diligence through closing, our team's proven methodology assures a transaction process that exceeds expectations. This team provides capital markets services to our clients – from valuation of existing portfolios and supporting asset strategy to assisting with debt and equity capitalizations. Our company focus on Retail is a competitive advantage allowing us to create a supportable marketing story to generate investor excitement. We are unique in our ability to bridge tenant specific knowledge about your property with local leasing and tenant market knowledge. This knowledge translates into value – communicating the stability and potential of the property and surrounding market, tenant rents, potential backfill candidates, and competitive projects.

RECEIVERSHIP

As a court-appointed receiver, TSCG acquires control of shopping center assets in order to protect and preserve the real estate collateral on behalf of interested parties. As retail properties become stressed, these interested parties seek third party resources with the knowledge and proficiency to preserve, and in some cases create, asset value in a very challenging market.

Overview Of Services

Our team includes Investment Sales and Finance professionals that are focused on marketing your asset for sale to a targeted pool of qualified investors through our national marketing platform. We accomplish this by identifying the most compelling attributes of your asset, creating an exceptional market offering utilizing unsurpassed market knowledge, qualifying prospective investors and exposing your asset to the market by leveraging the most advanced tools available in the industry. Once a buyer is identified we can also assist with securing acquisition financing. We assure maximum exposure of your asset using our extensive proprietary investor database, in addition to our network of 6,000 brokers and over 750 retail real estate specialists within our network of 65 ChainLinks offices.

TSCG ANALYTICS

Location analytics is the newest moniker for something that used to be called spatial analytics, geographic information systems (GIS), or just mapping software. People are more comfortable with viewing data on a map, and when they see patterns, they want to understand them – that's location analytics. So location analytics is really about dynamic, interactive mapping. Through location analytics, GIS provides the objective core data to support our associates' local market knowledge, industry insight and strategic relationships. Experience, research and instinct combine with analytics to create dependable collateral critical to real estate decision making.

Additional Resources

CHAINLINKS

ChainLinks is the leading retail-only real estate services network in North America with 65+ offices serving America's premier retailers, landlords, and investors. TSCG is a founding member and remains actively involved in the organization having served on the board, as well as various committees and councils. Combining the representation of the various member firms, ChainLinks exclusively represents over 1,500 retailers and over 200 million square feet of retail space. For our clients, it means we have direct access to any retailer or landlord in North America, as well as unsurpassed local market knowledge regardless of geography.

THE GLOBAL RETAIL GROUP

As a founding member of The Global Retail Group, TSCG can access a global network of retail property advisors, who together can offer retailer and landlord clients with multi-national, cross continent needs.

We take extraordinary advisors and pair them with the most highly skilled analytics team. Arm them with state-of-the-art tools and real-time technology, and the results are remarkable. Experience meets Innovation to create the best service possible for our clients. We are TSCG.

Competitive Advantages

We're not set up as a franchise nor as an affiliate of a bigger company, but simply one company. By design, that allows us to fulfill on our commitment of a seamless platform for the service level and consistency our clients have come to rely upon.

An advisory company without the distraction or liability associated with investment and development, for its own account. It is virtually impossible for a company that invests in and/or develops real estate to truly act as a fiduciary on behalf of a third party client. We don't and therefore, we can.

Local market knowledge with a regional perspective and a global awareness.

Unsurpassed research, analytics and mapping capabilities – Our company is constantly integrating new and innovative technology to achieve best-in-class data and analytic capabilities. As a company, we are obsessive when it comes to state of the art analytics.

A culture of service, not sales – We don't equate production with how well we sell our clients, but rather, how well we service our clients.

A structured and effective services model – The typical business model of a services company is to have generalists that are not only crossing property types but also business lines; i.e., tenant representation, land sales, leasing, and investment sales. Additionally, there is no executive level direction and leadership that monitors their associate's performance when it comes to servicing clients. We have chosen a different and more effective path. TSCG has four separate and distinct business lines; working collaboratively but each governed and operated independently.

The landlord services group is led by Sam Latone (co-CEO) and geographically under the direction of our managing directors. Our managing directors of leasing are responsible for leading, directing and managing a dedicated leasing staff and working with them to create and execute strategic leasing and merchandising plans for their leasing assignments. Our property management group is led by a 20+ year veteran managing director that works with our property managers at the strategic operational level. Each of our larger market offices has a senior level property manager that is responsible for the day to day operations of a portfolio of property. Property management accounting is centralized in Atlanta, under the direction of our director of property accounting with a full complement of staff accountants and accounting assistants that support the property manager from a financial perspective. The investment sales and finance teams are integrated into the landlord services group with all landlord services managing directors collaborating with each other to achieve each client's investment objectives.

From the rookies to the veterans, our people are our biggest strength and our biggest differentiator. We train, we teach and we learn; all day every day. Ours is a culture based on service, not sales – We measure our success by that of our clients.

The tenant services group, which currently represents 420+ retail and restaurant chains, is under the overall direction of David Birnbrey (co-CEO) and locally under the direction of our managing directors and market leaders. For our landlord services group, it affords us immediate direct dialogue with the retailers represented by our tenant representation group. Although it doesn't mean we can get a retailer to go into a space that is not right for them, it does allow us to understand why a no is a no, and how to potentially turn a maybe into a yes.

Under the direction of Bryan Chandler, TSCG's VP of Innovation and Technology, our analytics group provides objective core data to support our associates' local market knowledge, industry insight and strategic relationships. Experience, research and instinct combine with analytics to create dependable collateral critical to real estate decision making.

Under the direction of its co-CEO's, Josh Kagan and Sam Latone, Hart Realty Advisers institutional investors expect their investments to achieve consistently superior returns. Partnering with an investment adviser with nationwide access to viable investment opportunities is essential. As an SEC Registered Investment Adviser Hart has proven its ability to identify, structure, and manage real estate investments designed to maximize returns and control risk for institutional clients. Over three decades our mission and sole purpose has remained the same - providing consistently strong real estate investment performance, outstanding client service, and continually putting our fiduciary duties first, earning the trust and respect from clients, operators, partners, and employees.
